Jug Band

“ The band's members have a gorgeous sense of vocal harmony, heard perhaps best on the weird, pretty novelty waltz Lydia, about a tattooed lady. It neatly sums up what the Juggernauts bring to the table a sense of fun, whimsy and an appreciation for the weirder things in our collective past. And it doesn't hurt that they can totally rock out on a washtub bass. ”

## Program Information

### What is Jug Band Music?

Jug Band music is a mixture of jazz, blues, swing and ragtime music played on washboards, wash tubs, jugs, and other conventional instruments, first played in the 1920's. Louisville, KY claims to be the birthplace of jug music, though it was popular in many river towns along the Mississippi and Ohio rivers. Along with some of the great musicians and wonderful songs, there seemed to be a common thread running through the old jug bands. They were passionate about the music and it was always fun! These are the elements that are most important to the Juggernaut Jug Band. It's why they do what they do and why they are proud to call themselves a jug band.
